

# Make changes to your items in bulk

With One-Key, you can manage large inventories, more effortlessly, by making changes in bulk.

We've incorporated time-saving features into One-Key to help you more effortlessly manage your items so you can spend more time on your trade. One such feature is **Bulk Changes**, which allows you to easily edit your tools of the same type, right from your mobile device. In this article, we'll show you how to take advantage of this feature.

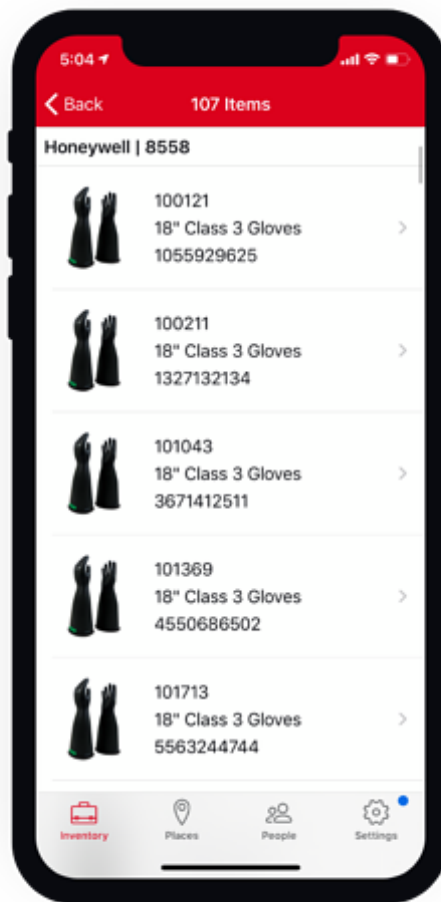

## Get started on the One-Key mobile app

- Launch the mobile app
- Your **inventory dashboard** will load.

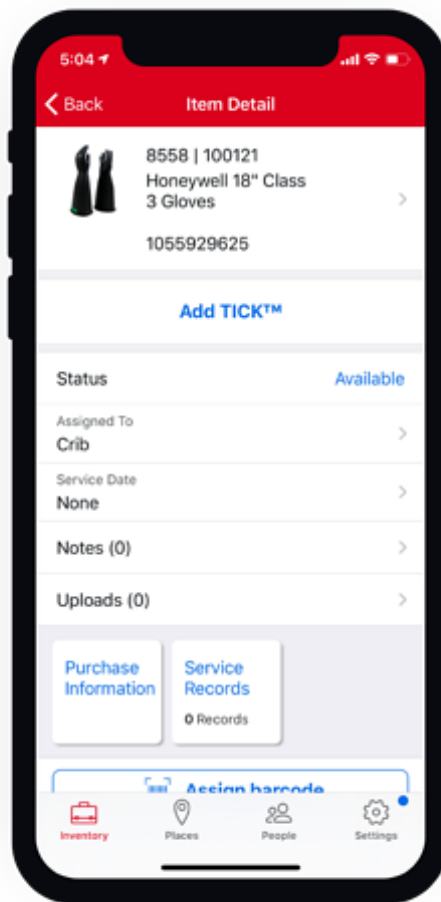

## How to make bulk edits

With Bulk Changes, you can edit **all** the tools in your inventory of the same type.

- From your inventory, select an item you have multiples of.

- Tap into "Item Details."

- Make the changes to the item details you'd like.

- For instance:
  - You can update the item's photo if you have an updated product photo for this item.
  - You can update its model number if you've replaced your old models with newer ones.
- When you're satisfied with your changes, tap "**Save.**"
- A prompt screen will appear, asking if you want to apply your changes to similar models.
- Tap "**UPDATE ALL.**"

Your changes have been made in bulk and your similar items have been updated.

One-Key's bulk changes feature helps automate your inventory process.
