

Set up and adjust your push notifications

Use ONE-KEY™ to create updates and reminders from your phone.

Use One-Key to receive alerts about all the most important moving parts within your inventory.

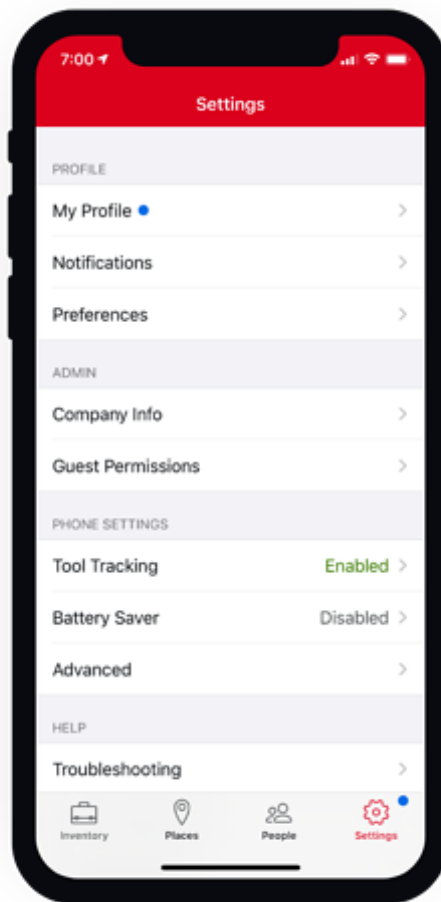

Get started on the mobile One-Key app.

- Log in to the One-Key mobile app.
- The homepage, or **Inventory Dashboard**, will display on your screen.

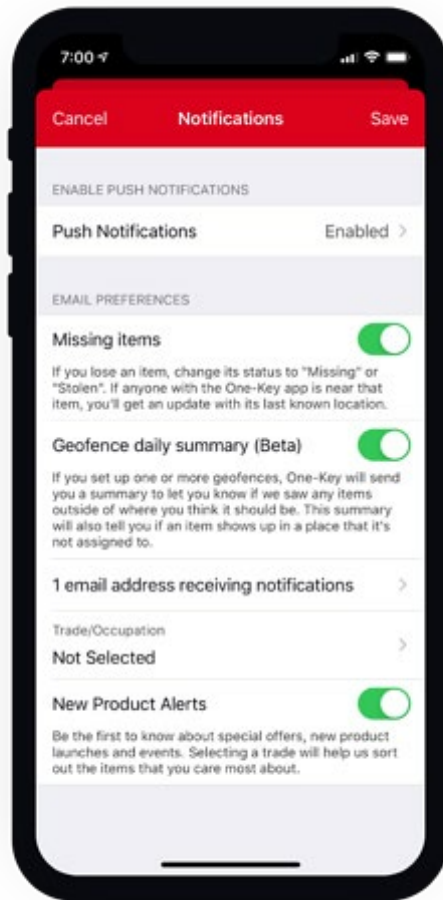

How to set up and adjust notifications

This section will explain how to set up and adjust notifications from your phone.

1. Starting from the Inventory Dashboard, tap on **Settings** in the right hand corner of the navigation bar at the bottom of the screen.

2. At the Settings page, tap on **Notifications**.
3. From here, you can choose to enable or disable notifications using the **Push Notifications** control at the top of the screen. You will now be taken to your phone settings.

4. From your phone settings, tap on Notifications near the center of the screen.
5. If it is not already enabled, flip the toggle on to allow notifications.
6. Back in the One-Key app, you can also adjust your email preferences:

- **Missing items:** Flip this toggle on if you'd like to receive notifications about missing items.
- **Geofence daily summary:** Flip this toggle on if you'd like One-Key to email you a daily geofence summary.
- **New Products:** Flip this toggle on to receive emails about new Milwaukee® products.
- You can also now select the trade you belong to, to tailor your One-Key experience.

7. When all your notifications have been adjusted to your liking, tap **Save** in the upper right-hand corner of the screen.

Now you know how to set up and adjust notifications in One-Key.

One-Key notifications are a great way to stay on top of important changes within your inventory.
